TO WHOMSOEVER IT MAY CONCERN

I am pleased to recommend **Shivam Jaiswal**, a member of the 180 Degrees Consulting Club at NIT Warangal, for his meaningful contribution to a mobile application project with ARSoft Consulting for *Eco Saviours*, a non-profit organisation promoting environmental sustainability. Shivam co-designed the tree management flow, bringing a strong focus on clean UI implementation and consistent component design. His attention to detail and commitment to creating intuitive user experiences significantly enhanced the quality of the interface. He also contributed precise and structured inputs to the Product Requirements Document for the tree management module. Shivam demonstrated creativity, responsibility, and a user-centred approach throughout the engagement. A receptive team player with leadership potential and a sharp eye for design consistency, I am confident he will add value to any product or design team. I strongly recommend him for future internships or professional opportunities.

Yours sincerely,

For ARSoft Consulting

Anil Kanchi
Director
